

Student assistant m/f/d 40-80h/Month Sustainable Corporate Development

Reference Number: GPE Digital 01-2022

We are looking for a student assistant interested in the **digitalization of a master program** for international students. You will work with a motivated team of scientists and students in a project of digitalization and expand your digital competencies. In addition to an independent and solution-oriented way of working, we expect a high degree of reliability in the execution of the assigned tasks.

Work content:

- ▶ Supporting the creation of digital teaching materials for topics like Digitalization in production, Industry 4.0 und Production Management.
- ▶ Supporting academic work by researching innovative teaching-learning forms for digital teaching.

Your Profile

- ▶ Very good skills with MS Office (in particular Word, PowerPoint, Excel)
- ▶ Ability to tackle and understand technical and organisational issues in production and to prepare them in written and visual form.
- ▶ Interest in the digital transformation of education
- ▶ Very good proficiency in spoken and written English

Begin/duration: The position is available with immediate effect and until August 2022. Further employment is sought.
